Summary

A Full Stack Developer **with 3 years of hands-on experience primarily using PHP , Laravel, Node.js , React.js, Next.js , JQuery AND Javascript.** possess solid knowledge in Docker **,** Git , CI/CD **,** enabling the development and deployment of containerized, scalable applications. My background in Backend Web Development, supported by a Computer Science degree**,** equiped with a diverse skill set to deliver high-quality, scalable solutions tailored to meet organizational needs.

Work Experience

Full Stack Developer (Full Time) 09/2026 - Now
No Limit Tech NYC

Full Stack Developer (Full Time) 05/2025 – 07/2026
RAR-IT Design & Development LLC

Backend Developer (Full Time) 09/2024 – 05/2025
NotFound Digital Agency

Full Stack Developer(Freelance) 02/2024 – NOW
Independent Digital Solutions

Education

Bachelor's Degree, Computer Science 09/2020 – 05/2024
Benha University

Certifications

1. Docker & Kubernetes: Production-Grade Containerization & Orchestration

2. Mastering CI/CD with GitHub Actions: Automate, Test, Deploy

3. Full Stack Development(PHP | React)

Projects

FharGo – Fleet Management System

- Reduced query latency to 100ms across millions of records using Hash Partitioning, cursor pagination, and Redis caching.

- Developed and optimized backend APIs using Laravel and Node.js, fully integrated with Uber API.
- Implemented real-time notifications with Laravel Reverb and a full authentication system including OTP and password reset.
- Built large-scale Excel/PDF exports using queues and batching, alongside automated daily reporting for drivers and vehicles.

Learn Hub (Mr. Omar)

- Developed a complete API from scratch using Laravel.
- Enabled chunked uploads for large videos to the Vimeo API.
- Implemented core authentication features including login, registration, password recovery, email verification, and access tokens.
- Built student features to watch lesson videos and complete associated exams, plus secure parent access tokens to view ratings, attendance, and quiz results.
- Designed and built a full Admin Dashboard.

SaaS Service Marketplace Platform

- Built a marketplace platform connecting customers with service providers by organizing complex data like sub-services and local work areas.
- Created a custom bidding system with intake forms that automatically matches providers to jobs and handles contract negotiations.
- Integrated the Pay.nl payment system to manage monthly subscriptions, billing history, and automatically generated digital contracts.

University Management System

- Developed a web application for Ibn Sina private college featuring a multi-user architecture supporting students, teachers, and administrators.
- Enabled students to take auto-graded exams, view schedules, and access academic features.
- Empowered teachers to create custom exams with defined questions and answers, and review subject statistics.
- Provided administrators with robust capabilities to import/export PDF and Excel files, publish exams, moderate questions, manage schedules, and control user onboarding.

Online Store (Pearl Store)

- Developed a full-featured e-commerce platform from scratch using PHP and Laravel.
- Implemented complete e-commerce functionalities including shopping cart management, order placement, product ratings, and favorites/wishlist options.
- Built user authentication (login and registration) alongside a comprehensive administrative dashboard for backend management.

Skills

Languages & Frameworks: PHP, Laravel, JavaScript, jQuery, React, Redux, Node.js

Architecture & Patterns: MVC, OOP, Design Patterns, SOLID Principles, Data Structures, Algorithms

Databases & Caching: SQL, MySQL, PostgreSQL, NoSQL, MongoDB, GraphQL

DevOps & Tools: Git, GitHub, Docker, Linux, CI/CD, Website Deployment (VPS, Shared, Hosting) Google Cloud , AWS

Other Skills: API Development, Payment Integration, HTML5, Sass

Soft Skills: Problem-solving & debugging, Cross-functional collaboration, Technical documentation, Time management & prioritization, Adaptability & continuous learning , Resilience & Accountability
